Our PSU (Projector Suspension Unit) range covers all makes of projectors. Each mount is specifically designed for the individual projector models listed, supporting the projector either inverted or in a cradle according to manufacturer's recommendations.

### Direct Fixing

The preferred method of projector mounting. All our PSU mounts are designed to align accurately with the projector mounting holes and take account of cooling or lamp access needs.

All PSU mounts are now available as micro adjustable versions having 2 axis, level & tilt. (See centre panel).

### Cradle Units

An alternative method of projector mounting, either to meet a projector's optical needs or to give protection to projectors when used in 'location' or hire circumstances.

### Micro Adjustment®

This 2 axis micro adjustment factory fitted option is available for most PSU units and provides a precision adjustment in level and tilt.

Registered Design
