

For Plasma/LCD/White Board
where the screen needs to be
easily moved between low
and high positions.

The Unicol PowaLift USB interface is designed to work on Windows 7, Windows 8, Windows 10 x64, with .NET Framework 4.0 and is built around Microchip's USB Bridge. It installs straight from the browser.

For the current version of the Unicol PowaLift Application, go to
<https://www.unicol.com/PowaLift/setup.exe>.

To uninstall the Unicol PowaLift software, choose the 'Remove' option on the 'PowaLift USB Interface' software in the 'Add and Remove Programs' in the 'Control Panel'.
