## V-WALL

## Free-standing video wall system

Ideal for situations when quick, easy and accurate assembly is required such as hire and retail, where regular change is inevitable.

This robust modular structure is made of individual mast units that are joined with cross members enabling a 4 display high unit to have infinite width, (3 display high units are also available). Cable management runs are catered for and there is adequate space for players or PCs.

Each display fixes to the VWP1 standard 'Push to close - Push to open' video wall mount capable of VESA 200 x 200 to 800 x 400, for displays up to 45kg. The mount allows for tool-less adjustment in all planes by means of knurled wheels for in-out and up-down movement. Lateral action is achieved by sliding the display smoothly on wheels located in the mount arms.

- \* **Robust modular construction**
- \* **Easy to assemble and install**
- \* **Sinterflex black and other finishes**
- \* **Wide choice of screen options**
- \* **Space for players and PCs**
- \* **Discreet cable management**
- \* **'Push to open' - 'Push to close' mounts**
- \* **Maintenance friendly**
- \* **Tool-less screen adjustment**
- \* **Fast turnaround delivery 5 - 7 days**
